FOR IMMEDIATE RELEASE

ETI Founder Recognized for 30 Years of Contributions

Morgantown, Pa., May 26, 2016 – ETI (Eastern Technologies Inc.) is proud to announce that Robert D. Keeler was recognized with a Lifetime Achievement Award for his commitment, leadership and 30 years of service.

In 1986, three independent water treatment service companies shared a vision of creating a support entity to complement their organizations. Owners Ross Weaver, Mark West, and Bob Keeler envisioned a supporting structure that would allow them to be at their best for their customers. Bob Keeler, founder of The Keeler Company, served as ETI's President and CEO for over 20 years, and he is the current Board Chair. At the ETI 30th Anniversary celebration on May 3rd, Gary Reggiani, current President and CEO, praised Keeler's leadership style characterized by his high ethics and humility. Keeler was also awarded a Plaque of Appreciation by John Phetteplace of Buffalo Industrial Chemical representing ETI's network of over thirty partner distributors.

As part of the annual meeting, two additional awards were given. The Mark A. West Award, named in honor of one of the original founders, was awarded to Marty Myers of ProAsys for the individual who has made a significant contribution to the growth and success of the organization. The Rookie of the Year, given to a valued contributor new to the network, was awarded to Stephen Ashbolt of ClearWater Industries.

"We have a solid track record of exceptional customer service and are proud of the relationships we've built and maintained over the years. We've earned the reputation of being a true partner because we offer unique solutions and provide a competitive advantage. Our success is tied to the success of our customers and partners. We're honored to feature their personal stories on our website for our 30th anniversary," Gary Reggiani, President/CEO.

About ETI

ETI is a leading provider of specialty water treatment chemicals to a network of over thirty partner distributors throughout the mid-Atlantic region. Recent expansion includes North and South Carolina, Florida, Iowa and Missouri with a customer base of over 150 companies. ETI's expertise in water treatment solutions combined with field application and support has earned them the reputation of being a true partner with their customers.
